MICROWAVABLES

Made of 100% borosilicate glass, our microwavables range has the unique ability to withstand extreme temperatures, making it safer and stronger than regular glass. Borosilicate glass is the safest and healthiest option as unlike plastic and ordinary glass, it does not leach chemicals into food even after repeated usage. The glass retains its clarity over years of usage, ensuring that your food looks as fabulous as it tastes. Cook, heat, serve, store - do it all with ease in Borosil!

PREPARE / BAKE

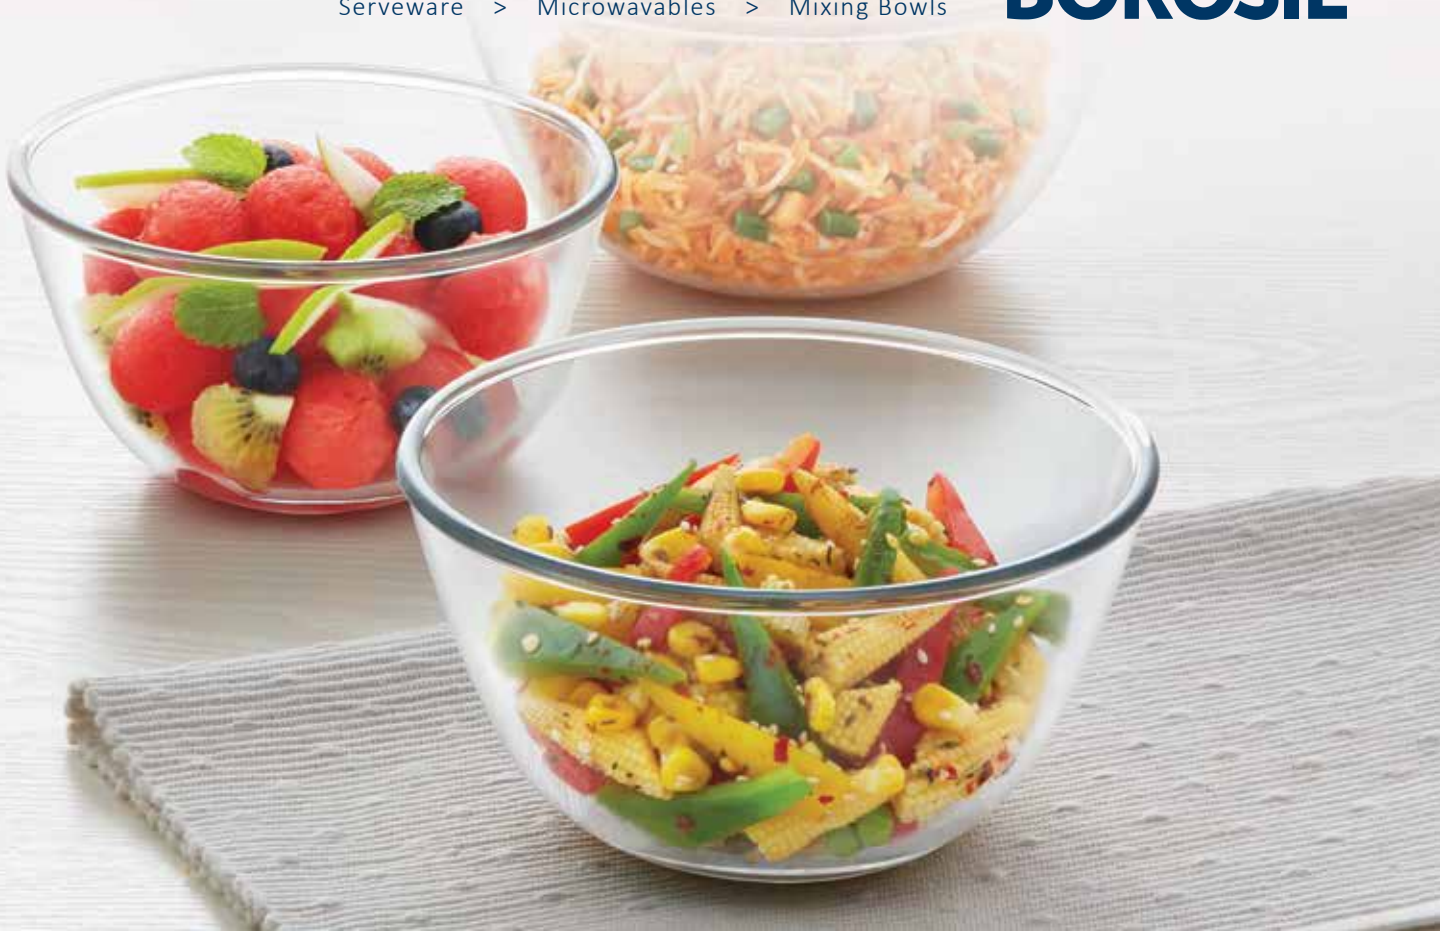

Boil potatoes or cook rice in our extreme heat proof microwavable range. Whisk ingredients directly in the hardy borosilicate bowl with an electronic hand-mixer. Two glass bowls are perfect for baking cakes or even dhoklas and other baked dishes.

SERVE

The casseroles are perfect for daily serving as they keep the food warm and don't allow anything to fall in, so that you can lay the table at your convenience.

HEAT

Use casseroles to reheat food - the lid keeps gravy from splashing in the microwave.
